

“We would like to serve you better- You can tell us how”

Are you concerned about your son / daughter’s life once they leave school? Has your son/daughter already left school and are not active in their community?

Community Living York South has chosen your postal code area as one of the three geographic areas we are targeting for the development of new supports and services.

This is a great opportunity to provide input regarding the supports and services that **your family** would like to see in **your community**.

Your commitment:

- Attend all three evening sessions in your area (see dates and location for your postal code below).
- Participate in Sessions Themes as described on page 2.

Our commitment:

- Respite for your son/daughter at meeting location each evening
- Small Compensation (gift card for gas)
- Comfortable environment to provide input for potential services and supports in your community.

Turn over to find the dates in your community and confirm your participation

“You have an opportunity to build your community”

Please attend the sessions in your postal code area and RSVP by January 25th, 2012
